

ALLEN's powerful, reliable and durable Power Sprayers are the preferred tool for applying release agents, water-based sealants and curing compounds on concrete construction sites.

The continuous recirculating system ensures your material is always well mixed and ready to spray.

Available in barrel, cart, tow or skid mount.

FEATURES:

- Spray Gun with Fan Tip 4020 and 50' (7.6 m) of hose is standard on Sprayers.
- Foam Filled Tires optional on all carts.
- All materials must be thoroughly mixed before spraying.
- Sprayers are intended for spraying Form Release Agents, Water Based Concrete Sealants, and Concrete Curing Compounds.
- Allen Sprayers are not intended for spraying any types of Asphalt Sealants. Spraying of any type of asphalt sealers will cause damage to the pump and will not be covered by warranty.
