

The Mini Screed™ C provides superior productivity and levelness on all types of job applications. Small commercial, upper deck and residential projects can now have the same high quality, professional Laser Screed® floors that you only expect on a large commercial project. Save on yield and reduce manual efforts on placements while improving floor quality.

Mini Screed™ C Applications:

- Slab-on-Grade & Elevated Deck
- Post Tension
- Rebar
- Chaired Mesh
- Metal Deck
- Radiant Floor Heating
