

This ride-on S-485 Laser Screed® model does more than just screed concrete, it also rakes to three operated controlled Somero® Quick Pass levels. This is just the beginning of what this machine can do for the contractor. The S-485 Laser Screed® machine is the right machine for contractors who want better performance when you encounter difficult applications such as:-

- Slab on Grade or Slab on Deck
- 3 Dimensional Contours
- Chaired Rebar or Mesh or Fibres
- Warehouses
- Factories
- Shopping Centres
- Hard Stand Pavements

The benefits of the S-485 include:-

- Incredible Pulling Power
- Easy to Operate
- Stand on Ride on operation
- OASIS Control System
- Simple, Fast and Accurate Grade Set-up
- Lightweight and Versatile
- Screed in Any Direction
- 4-Wheel Drive
- Utilise as a Laser Screed or Laser Controlled Rake
- Utilises Somero's Proven Technology
